Day Trading 2018 - Learn How To Do Day Trading

The market can bounce, and you will be naked. Your losses could get smaller. I had a bear spread after the market selloff in Feb 2018, fixed it with 0.7 loss of the spread width. The next day it became 0.2, so waiting sometimes helps. Never keep your losing positions naked, markets can always bounce, even if it's one day till expiration.

Some day traders like lots of volume without much volatility. The price moves one cent at a time and they scalp the small movements. Others prefer lots of action in the stocks or ETFs they trade (Find Day Trading Stocks With the Biggest Moves). The price moves quickly, often moving several percentage points in a day, and may jump several cents or more in seconds.
